

The Bin That Communicates!

RECYCLE

PROMOTIONAL

BRANDING

This ErgoCan collection and recycling system will enhance your collection program with eye catching graphic display panels. Enjoy the many benefits of this stylish system including:

- ✓ 60 Gallon - 26"W x 26"L x 48"H (660 x 660 x 1219mm). This large capacity bin is designed to handle a high volume of disposables during peak demand times. Use it indoors or outdoors. The showroom quality graphic display panels will clearly communicate your message from any angle in cafeterias, arenas & stadiums, outdoor grounds, special events, convention centers ... any space
- ✓ Collect up to 4 categories of recyclables & trash in a single EC2626 bin with the use of the Dome Lid, Recycling Inserts and Sorter (see next page for details). No longer do you need 4 bins to collect 4 recyclables, this will do it all-in-one
- ✓ Ergonomically friendly fold down door feature - Minimal lifting is required as bags are removed laterally across the door, not vertically through the top. May reduce the risk of MSD (Musculoskeletal Disorder); injuries to the neck, shoulder, and lower back due to heavy lifting vertically
- ✓ Unique Lid-Lock feature - conceals bag and eliminates bag "falling-in" problem for a consistently neat and clean appearance
- ✓ Perfect-Fit bags - Utilize 98% of the bag. Helps to reduce consumption thus saving costs
- ✓ ErgoCan bins are made with recycled plastic content
- ✓ Messaging Panels (your design here) – Effective & Visible Communication. Design your own messaging graphic display panels with our easy-to-use design templates. Or use our many stock designs. If you choose to use our designs, you may want to personalize it with your logo. That's right, we can add your logo to it! - ✓ Option to choose between Portrait or Landscape
- ✓ Perfect for adding additional signage to your ergocan

Scan this QR code or go to www.ergocan.com/signboard for more information!

Ergonomics

ECSORTER

This 4-section corrugated plastic sorter will turn your EC2626 bin into a multipurpose collection point for several recycling categories. Used with the dome lid, you can fill the lid openings with up to 4 different styles of recycling inserts (see EC2626DOMEINSERT). For example, collect Plastic Bottles, Aluminum Cans, Paper, and Trash and the Sorter will keep each item separated for easy removal. You no longer need multiple bins to collect 4 different recyclables, this one will do it all

Scan this QR code or go to www.ergocan.com/ec2626sorter/ for more information!

Multi-Purpose Recycling Collector

EC2626DOMEINSERT Dome Lid Inserts

Hole/Slot insert

Slot insert

Hole insert

Diamond insert

Utilize your Dome Lid for recycling as well as trash collection. Add Dome Lid Inserts to the lid openings for recycling a single category or 4 different categories. For example, collect all Bottles or multiple recycling categories such as Bottles, Paper, Cans, and Trash. These Dome Lid Inserts fit securely into the openings, but can be removed easily as your needs change
